Red Army In Race Against Rainy Season

Russian Forces Drive Ahead On Southern Front—Many Communities Freed

IMPENDING RAINS MAY BE HANDICAP

By NATALIA RENE
(U. S. Staff Correspondent)
MOSCOW, Sept. 8.—The Red army crashed forward all along the southern front today in a race against the impending September rainy season after liberating more than 300 communities in the Donets, Kharkov, Northern Ukraine and Bryansk sectors in the last 24 hours.

The Soviets beat back desperate German counter-attacks as the Russian high command announced the addition of 4,800 slain Nazis to the toll of at least 1,500,000 German casualties, including 400,000 killed, during the current summer offensive.

Nazis Hurl Tanks
The Germans threw large forces of tanks into the battle for the Donets Basin where, according to the midnight Russian communique, 2,000 Nazis were slain as the Soviets advanced six miles and overran 90 communities, including the important railroad town of Konstantinovka, 10 miles north of Stalino.

The communique gave no further details of the fighting near Stalino, main Nazi bastion in the Donets (Continued On Page Two)

PA NEW OBSERVES

A three and a quarter pound Cuban tomato, grown in her victory garden, has been reported by Mrs. Mary Messner of Burns street.

Because of war time conditions there will be no reports of football games this season given over the telephone by The News. Telephone service requires that all non-essential calls be banned for the duration. The condition existed last football season, and is even more intensified this year. Hence, no football score service on the New Castle games at The News this fall.

"Back the attack, buy Third War Loan Bonds." This is the slogan of the campaign being launched on Thursday throughout the nation to sell fifteen billion in bonds to the people of the nation. "Back the Attack!"

According to a note to The News, an item from Mercer last week said that fifty "air cadets" at Westminster College had donated blood at the Mercer blood bank. The note says that the army men at Westminster are an army engineering unit, and not air cadets.

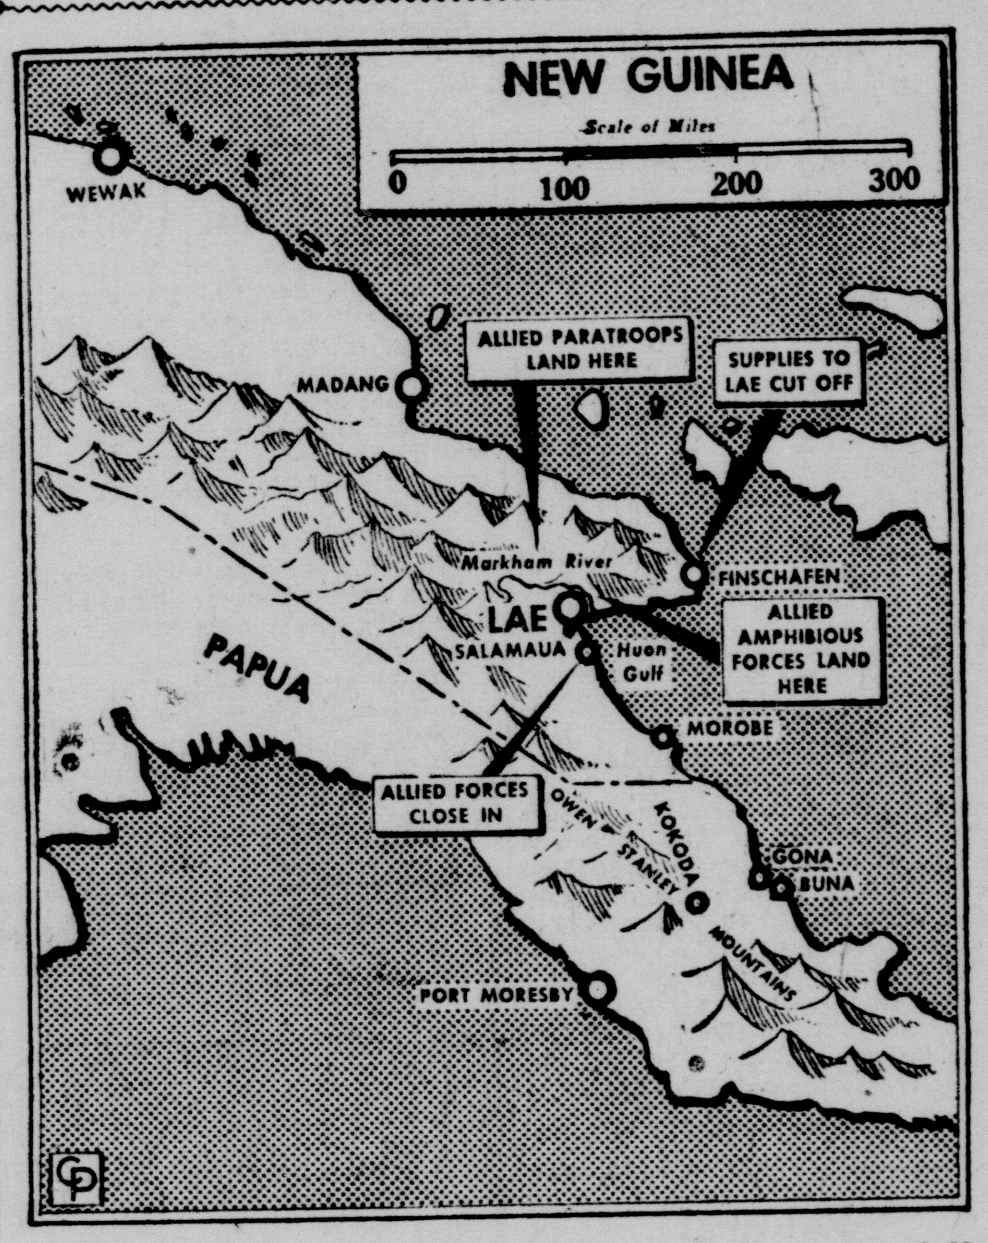

Today was rather an awesome day for a lot of youngsters in New Castle. The little six year olds made their debut in the public schools, and it was an experience they will never forget. Parents were riding car pools, and a lot of foodstuffs would be destroyed.

Encirclement of 20,000 Japs in the Lae-Salamau sector of New Guinea has been completed by American paratroops, who landed in the Markham valley, and veteran Australian troops, who landed from boats above Lae. Positions of the trapped enemy forces and Allied troops are shown on the map above.

(International News Service)
LONDON, Sept. 8.—Nazi armed forces have evacuated the city of Stalino, main bastion in the Donets Basin, the German radio admitted today, according to Reuters.

The beleaguered Germans apparently gave up Stalino in the same manner as they fled from Orel, Belgorod and Kharkov to escape encirclement by onrushing Soviet armies.

First word of the fall of those major bases came in the same manner as the announcement of evacuation of Stalino.

Destroy Installations
The Germans said that the withdrawal from Stalino was effected after all installations of military importance had been destroyed.

Front dispatches previously have reported that huge fires were observed in the environs of Stalino.

Allies Tightening Ring About 20,000 Japanese Troops

American And Australians Closing In On Trapped Japs In New Guinea

BOMBERS AIDING GROUND ADVANCE

By FRANK ROBERTSON
(U. S. Staff Correspondent)
ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, Sept. 8.—American and Australian ground forces in Northeast New Guinea today advanced on all sectors of the Lae-Salamau front, crumbling the outer defenses of the twin Jap bases where an estimated 20,000 enemy troops are trapped.

Allied aircraft supported the ground forces tightening their ring of encirclement with heavy bombardments of key Jap defense positions in the heart of the Lae-Salamau area.

American paratroops who dropped from an armada of transport planes into the Markham Valley west of Lae were in full control of the Nadzab air strip, 20 miles from Lae, and reinforcements were being sent in by air.

Defeat Jap Force
The Australian landing parties which put ashore above Lae before the Yank paratroops dropped from the sky behind the Jap positions pushed rapidly forward to reach the Busu river a few miles east of Lae. The advance to the Busu river was achieved after a Jap force near Singau plantation was defeated by the Australians.

At the southern end of the battle area Allied troops intensified their pressure in the vicinity of Salamau.

Two miles north of Lae Allied heavy bombers blasted enemy defense positions in the vicinity of the Busu river with high explosives. Numerous direct hits were scored which caused large explosions and fires in supply and fuel dumps. Flames from the fires were visible for 30 miles.

Bomber Attack
The Malahang plantation area, northeast of Lae, also came in for attack by medium bombers. The Allies dropped 65 tons of explosives on defenses and bivouac areas and (Continued On Page Two)

FOGGIA AIRPORT AGAIN BLASTED

(International News Service)
ALLIED HEADQUARTERS IN NORTH AFRICA, Sept. 8.—Batting swarms of enemy fighters and flying cloud formations, squadrons of Flying Fortresses blasted the Foggia airport network on the mainland of Italy in a new attack which saw 11 Axis interceptors shot down, Allied headquarters announced today.

Dispersal of enemy fighters was ripped by terrific explosions and huge fires burned through the entire area before the big bombers left the target region, an official announcement revealed.

Foggia, one of southern Italy's most important airport centers, is on the eastern portion of the mainland, inland from the gulf of Manfredonia.

U. S. And Britain May Offer Soviet Post-War Joint Security Pact

By KINGSBURY SMITH
(U. S. Staff Correspondent)
WASHINGTON, Sept. 8.—Strong diplomatic belief prevailed today that the United States government is preparing to join with Great Britain in offering the Soviet Union a post-war Anglo-American security pact.

It is believed this pact will be offered Russia in return for a Soviet pledge to respect the future political freedom of eastern Europe, and to agree to a joint policy toward a defeated Germany.

Secretary of State Cordell Hull is expected to extend the American offer at the forthcoming tripartite meeting of U. S., British and Soviet foreign ministers.

Prepare For Meeting
Active preparations are now being made for this meeting, which may be held next month and is intended to pave the way for a conference between President Roosevelt, British Prime Minister Winston Churchill and Soviet Premier Joseph Stalin.

HARRISBURG, Sept. 8.—Pennsylvanians today were called upon to back the nation's third loan drive, which opens tomorrow, with the purchase of 1,071,000,000 in bonds and stamps.

In a proclamation, Gov. Edward Martin declared:
"Fighting on foreign soil, we shall need vast sums of money to supply our country's fighting men with the equipment necessary for them to emerge victorious."
"I call upon our citizens to give united support to the third war loan drive, in order that our sons who are overseas may be inspired with the knowledge that we are wholeheartedly behind them."

War Bond Drive To Start Here On Thursday

Formal Opening Of Campaign, Arranged For Friday Evening

MILITARY PARADE WILL BE FEATURE

Conscious of the job ahead, but prepared to tackle it in the usual forthright manner, war bond salesmen of Lawrence county start their Thursday morning campaign, September 9, the opening of the Third War Bond campaign in the United States. Out in front of the workers is an objective of \$6,307,000 to be raised, and between Thursday morning and the close of the campaign there is a heap of work to be done.

Generally speaking, the campaign set-up in the county is the same as it was for the Second War Bond campaign. Heading the campaign is Judge W. Walter Braham as chairman, and Joel S. McKee as co-chairman, the same two men who did such an outstanding job in the second campaign. This time their official title is reversed.

Formal Opening Friday

While the campaign opens Thursday, the formal opening, with trimmings comes Friday evening, September 10. A military parade from the public square to the Taggart stadium, a program between the halves of the football game and a display of drill technique by the GAC's of the senior high school.

Charles M. England, grand marshal of the parade stated today that the parade would form at the Legion Home on North Jefferson street at 6:45. In line will be eighty Naval cadets from Westminster college under the command of Lt. C. J. Winika. Also in line will be the high school band of the GAC's, the members of the American Legion and the Veterans of Foreign Wars and floats from such industries and organizations as the Johnson Bronze company, the Aluminum Company of America, the Standard Steel Spring company and the Pennsylvania Motor Truck Association.

To The Stadium

Moving out from the Legion Home the parade will march to the stadium where there will be a drill. Between the halves the GAC's will drill under the direction of Miss (Continued On Page Two)

Eisenhower Announces Surrender; After Allied Forces Drive Into Italy

By PIERRE J. HUSS
(International News Service Staff Correspondent)

ALLIED HEADQUARTERS IN NORTH AFRICA, Sept. 8.—Three years and three months from the fateful moment Benito Mussolini plunged his nation into war, Italy surrendered today to overwhelming Allied military power.

The capitulation was announced officially by Gen. Dwight D. Eisenhower. A temporary military armistice was granted to Italy, invaded only last Friday by powerful units of the British Eighth army under Gen. Sir Bernard L. Montgomery.

Thus Italy fell in six days after the first forces of liberation landed upon her shores.

The British Eighth army landed at Reggio Di Calabria and other points on the southwestern toe of Italy last Friday morning, continuing in full strength the invasion of continental Europe begun on July 10 with invasion of Sicily.

That Sicilian campaign lasted 38 days—Italy's chief island outpost held out six times longer than the kingdom itself.

The Allied commander-in-chief's announcement said:
"This is Gen. Dwight D. Eisenhower, commander-in-chief of the Allied armies."

"The Italian government has surrendered."

"As Allied commander-in-chief, I have granted a military armistice."

"This step has been approved by the governments of the United Kingdom, the United States and the Union of Soviet Socialist Republics."

"Thus I am acting in the interests of the United Nations. The Italian government has bound itself to abide by these terms without reservation."

"The armistice was signed by my representative and the representative of Marshal Badoglio."

"It becomes effective this instant."

"Hostilities between the armed forces of the United Nations and those of Italy terminate at once."

"All Italians who now act to help eject the German aggressors from Italian soil will have the assistance and support of the United Nations."

Surrender Unconditional

The government of Marshal Pietro Badoglio accepted the allied demand for unconditional surrender drafted at Casablanca by President Roosevelt and Prime Minister Winston Churchill in January.

Hostilities came to an end and help was pledged to all Italian citizens aiding in the ejection of German troops from Italian soil.

Italy's sudden capitulation, coming only six days after the British eighth army under command of Gen. Sir Bernard L. Montgomery plunged into the Calabrian peninsula, involved the following:

1—Italy surrenders unconditionally, marking complete severance of the Italian kingdom from the Nazi dictatorship and tyranny of Adolf Hitler.

2—The Italian armies lay down their arms immediately.

3—A military armistice is granted.

4—The United States, Great Britain and Soviet Russia, associate themselves together in reception of an armistice.

5—Help was pledged to all Italians aiding in ejection of Nazi aggressors from the soil of Italy.

Signed On September 3

The armistice was signed on September 3 in Sicily, the very day that Gen. Montgomery's troops swept across the straits of Messina for invasion of the Italian mainland.

It was agreed, however, that the agreement would come into effect "at the moment most favorable to the Allies."

This time "has now arrived," Gen. Eisenhower said.

Marshal Pietro Badoglio immediately transmitted to the American general an official proclamation acknowledging the surrender, promising cessation of hostilities and pledging that the Italians would "oppose attacks from any other source"—almost tantamount to a declaration of war against Germany should Adolf Hitler decide to assault his one-time ally.

Badoglio's manifesto was sent to Algiers for broadcast from this United Nations owing to obvious fears that German radio stations and prevent its dissemination to the Italian people.

Leaflets were dropped by Allied planes to inform them of their government's and army's surrender.

The armistice group which met in Sicily discussed the possibility of a definite German move to forestall publication of the armistice. One member of Badoglio's surrender (Continued On Page Two)

Post-War Plans Are Considered

Powerful Armed Forces Likely To Be Maintained Abroad Following War

CHURCHILL AND PRESIDENT TALK

By ROBERT G. NIXON
(U. S. Staff Correspondent)
WASHINGTON, Sept. 8.—President Roosevelt and Prime Minister Churchill, it was learned today, already have shaped the broad outlines of an allied post-war plan which calls for maintaining powerful armed forces abroad after the Axis is crushed, and a "cooling off" period before any permanent peace settlements are entered into with the vanquished foe.

Explore Post-War Problems

In their White House conferences since the end of the Quebec war strategy meeting, the two leaders have explored the whole field of post-war problems, with particular reference to avoiding the mistakes that followed the last world war.

They have determined that there must be a lengthy period of gradual transition from war to peace—a "cooling off" period from the time the last shot is fired until the nation's delegates sit down at a peace table and talk about peace treaties.

During this period, and perhaps for a long time afterward, the allied armies will have to maintain peace and order, under the plan.

This would mean the keeping of many thousands of American soldiers in Europe and the far east for a considerable period after the fighting ended to police the conquered countries.

Up To Congress

Congress, however, presumably would have the final word on this (Continued On Page Two)

Nurses Class Is Graduated

Thirteen Young Ladies Receive Diplomas From New Castle Hospital School

PROGRAM GIVEN AT BEN FRANKLIN

"The nursing profession is a vocation, a calling from God, which without 'power of divine love' would mean very little." So said the Rev. Fr. Alvin J. Forney, diocesan director of the Holy Name society of Pittsburgh, Tuesday evening at the commencement exercises for 13 student nurses of the New Castle Hospital School of Nursing, held at Benjamin Franklin high school.

Father Forney continued and told why that love of their work and for their patients was necessary in order to make their profession successful. Showing comparison between the beautiful love of the Blessed Mother for Her Son, and the love so necessary for the nurses to have for their fellowmen, their work and for the patients, Father Forney said in concluding his address. He also extended congratulations to the graduating class.

And down the years that stretch out ahead will be lots of excitement but say, it can hardly match to what we have now, it's seventy-nine today.

Appointment Of Baldwin Is Hit

Congressman Sees First Step Toward World Farm Security Administration

F. S. A. INVESTIGATION IS JUST COMPLETED

By WILLIAM THEIS (U. S. Staff Correspondent)

WASHINGTON, Sept. 8.—Farm Security Administrator Calvin C. Baldwin's appointment as economic governor of Italy is "the first step toward a world F.S.A.," Rep. John R. Ill. declared today in advance of a house report expected to blast F.S.A. "collectivist" policies. Speaking at a hearing before the House Agriculture Subcommittee, which has just completed an investigation of F.S.A. under Baldwin, Johnson said:

"The whole ideology under Mr. Baldwin is not compatible with the traditional land policy of the United States. The record of F.S.A. on the whole has not helped the farmers but has made them more dependent upon a paternalistic government."

World F.S.A. "Now Mr. Baldwin is being moved up in the first step toward a world F.S.A."

The committee member, who emphasized that the forthcoming house report probably would not attack Baldwin personally in view of his new appointment, added that he could only expect the "Baldwin ideology" to be carried out in the foreign assignment.

The report of the group headed by Rep. Coolidge D. N. C. who has not yet returned to the capital, will undoubtedly recommend legislation to "confine and limit" the Farm Security Administration in its activities, Johnson said.

The congressman particularly assailed the F.S.A. practice of negotiating 99-year leases in "collectivist projects" contrary, he said, to law, and Baldwin's insistence on continuing supervision of rehabilitated farmers.

area. Russian forces driving on the German anchor base were last reported just west of Makeyevka, steel city seven and one-half miles east of Stalino.

Fifty-nine German tanks were knocked out in the Donetsk Basin, 42 Nazi planes were shot out of the air and the Russian air force destroyed at least 20 more in raids on enemy airmen.

In Northern Ukraine, the Soviets reoccupied more than 150 communities in the face of strong enemy resistance. North of Bakhmut, one Russian column forced a river crossing and after fierce fighting seized the district center of Bakhmut. Other Russian forces liberated the district center of Buhovizovka in the Sumy region.

One Russian unit alone in the Bakmach sector killed 1,500 Germans. Prisoners taken and even battalions had only 20 to 30 men left. Similar new gains were scored by the Russians south of Bryansk, where more than 50 towns were overrun, including the railroad junction of Navlya. In this sector, a German regiment was wiped out and Soviet troops, in cooperation with Russian guerrillas, liberated more than 1,500 civilians the Nazis were about to deport to Germany for slave labor.

A German battalion surrounded in the Smolensk sector, the Soviets after the German forces crossed a marsh southwest of Yelnya and dislodged the Nazis from several strongpoints West of Dorogobuzh. 500 Nazis were slain as the Soviets repulsed several counter-attacks. Forty-nine enemy planes were shot down in the Smolensk area.

phase of the post-war plans, and it is expected the president will submit any peace plans made with the prime minister to Congress for approval and appropriation of necessary funds.

Preliminary plans for post-war conduct are expected to be placed before the Soviet Union for conference at the forthcoming tripartite conference.

The allied combined chiefs of staff committee, which is now handling Anglo-American war plans in all the theaters of war, will continue to function after the war is over and will be charged with full power in maintaining peace by armistice force if necessary.

The plan calls for putting off any peace conferences until all the Axis powers have been smashed. An allied military government will be in control of Italy, Germany and Japan after they are knocked out of the war. No peace talks are contemplated until all three foes have surrendered unconditionally. Then the three Axis powers will have to demonstrate their fitness for peace over a considerable period of time before the final peace settlements are discussed.

TWO CIVILIAN PATROL FLYERS KILLED AT ERIE

(International News Service)

ERIE, Pa., Sept. 8.—Two Ohio civilian air patrol flyers were killed in a mid-air crash while enroute to an army show in Erie stadium Monday night, it was announced today.

Dayton, Davis, 38, of Hilloughby, the pilot, and Fred Striess, 32, of Cleveland, an observer, were killed when their airplane hit another piloted by John Lucas, 35, of Cleveland. Davis' plane crashed three miles from the stadium, where the planes were to have made a simulated raid attack. Lucas, who made a forced landing, was not injured. Only the propeller of his plane was damaged.

The crash was caused, authorities said, when Lucas swerved to avoid hitting a third airplane operated by Howard J. Bechtold, 45, also of Cleveland, whose lights were out. Bechtold said he was unaware of the accident.

A Zurich dispatch to the Daily Express said notices had been posted in Paris by German authorities ordering residents of the city to move to specified concentration camps when invasion comes.

YIELDING IN RUSSIA

BEGINNING of a long retreat by the Nazi invaders in southern Russia has marked a definite turning of the tide in terms of territory regained. Already the Red armies have fought back 600 miles from the farthestmost point reached by the Nazis. How much farther the current Nazi retreat will carry the victorious Russians is to be seen.

But indications now are that Hitler will lose this summer the most productive sections of southern Russia, territory which he had long coveted and which he has held for two years.

It is very doubtful that the Nazis can hold on in Crimea and along most of the northern shore of the Black Sea. The so-called Dnieper defensive line of the Nazis is from Riga on the Baltic through Kiev to Odessa. That would leave the invaders in control of the mountainous western Ukraine, the marshes east of Poland and a strip of frozen northland.

Because this terrain is less favorable for mobile warfare, the Nazis may be able to defend that line for a time. But they will be fighting for possession of territory that is all but worthless. If they could have held Crimea, the Ukraine and the Donets Basin, they would indeed have had a conqueror's prize.

ROPE PREFERRED FOR HAW-HAW

Nazi radio broadcasters of the Quisling type—traitor Americans, British and the like who went over to Hitler—are credibly reported suffering the most advanced type of Berlin jitters under the rain of bombs from the R. A. F.

One of the least attractive of the renegades, who calls himself Lord Haw-Haw, according to these reports was in a restaurant when a big bomb fell loose outside, and he fainted.

During earlier stages of this war, particularly during the London blitz, Haw-Haw persistently needed the British people, singing the praises of Nazism and cheering over Hitler's victories. He may have thought bombing of English men, women and children amusing then. Now, on the receiving end—he faints.

Nevertheless we believe the British would regret deeply if an R. A. F. bomb should happen to still his despicable voice. They want to hang him.

REMOVING STATE TRADE BARRIERS

The council of state governments is now able, for the first time, to report substantial progress in the removal of trade barriers between the states, relates the Philadelphia Inquirer. In some instances legislatures have repealed laws hampering interstate transportation of war materials on highways. In other cases governors have taken executive action.

At one time ten states had virtual ports of entry, where vehicles from outside their borders were halted and tribute was levied on their contents or on the vehicles' privilege of entering. Different size and weight requirements of trucks seriously hampered the movements of freight for the army and for war plants.

Many of the new and more liberal regulations are limited to the duration of the war. They should not be allowed to lapse with the coming of peace. If they are needed for the war, they are equally essential in normal times. Trade walls between states are an anomaly in this free country, injurious not only to its commercial prosperity but to its unity of spirit.

SWAMPING OUR FOES WITH SHIPS

One consistently bright spot in our war production record continues to be cargo ship construction. This is shown by the Maritime commission's report that 164 vessels were delivered by American shipyards in August—six more than in July.

It is impossible to overestimate the immense value to the Allied war effort of our highly successful shipbuilding activities. During a long, disturbing period the advances were chiefly encouraging in that they were keeping up with the U-boat campaign. Now with that peril at least temporarily mitigated, the real importance of the vast increase of Allied shipping is making itself felt with relation to vitally important military and naval operations throughout the globe.

There are no figures to indicate whether the current rate of progress in new shipping is up to all expectations. But there seem to be grounds for belief that no undue wave of optimism about an early, easy end of the war is sweeping the shipyard workers.

Or perhaps they know that keeping the new vessels sliding down the ways is one of the surest ways of ending this conflict. That is the spirit which must permeate every phase of American war production if victory is to be quickly achieved.

WRECK OF GERMANY

Everywhere in occupied Europe the factories turning out the essential materials of war for the Nazis are being whittled down. At the same time American and British bombers are destroying in increasing numbers the fighter planes which Germany is relying upon mainly to defend the industries of the Reich.

Rolling stock and locomotives on German railroads are being damaged severely together with the transportation terminals which systematize a railroad's functions. Destruction and paralysis are proceeding at a progressive pace. It is a softening up process which speeds the hour of successful invasion.

There is scarcely a region of the Reich and its conquered areas that is so remote for bombing. Allied attacks range from Trondheim in Norway to the fastnesses of the Balkans and from coastal France to eastern Germany and Czechoslovakia. And in central Germany great industrial areas, notably Hamburg and the Ruhr, have been blasted into oblivion.

An example of selective bombing is supplied by the Vienna region. A fighter aircraft factory at Regensburg, producing 200 planes monthly, has been demolished by Flying Fortresses. At Schweinfurt Flying Fortresses wrecked factories which make more than 50 per cent of the ball and roller bearings needed for Nazi weapons. In those two raids 307 German planes were shot down. A high mark was the crippling blow inflicted by American Liberators on the Rumanian oil fields.

All of these add up to the growing devastation of industrial Germany. The result is being felt now on the eastern front. When the western front is established, the Nazi military machine will be a shell and far easier to crush.

Scientists say the sun may explode and destroy the universe, thus ending the world's other problems.

The Parent Problem

By Garry C. Myers, Ph. D.

TOO EARLY DATING

The nation over, dating by boys and girls begins unduly early, even at from 10 to 14.

This early pairing seems to be most common among families of the so-called leaders (who really set the standards). If there is a dancing class for boys and girls from 10 to 14, there naturally are some dances and consequent dating by these children who are turned loose as a rule.

Even some elementary schools, I have learned, are giving social dancing lessons, inevitably stimulating very early dating.

I wish social dancing were not so stimulated until about the age of fifteen or sixteen, and that folk dancing would be the practice up to then. Certainly this should hold for the public schools.

The most common early sex-pairing of children is for going to the movies. An elementary teacher of a large city told me that most of the children in one sixth grade class of her school regularly dated at school for the movie and that they were encouraged to do so by their mothers.

Too Early Dating

This practice tends to emphasize boy-girl pairing unduly early, and even those at first allowed to go only by day soon want to have this privilege at night and to go where they please. Mothers of these children might well get together and agree on some reasonable limitations and minimum age standards. Mothers' clubs and PTA's might do effective work in this way. But it has not been fashionable for any such organizations to covenant on limitation of their children's freedom in the cause of protection.

Instead, they are inclined to consider ways and means for more freedom for their children.

Appropos of this situation, consider the following letter:

"My dear Dr. Myers—I have a son thirteen. He has been coaxing me to permit him to take a girl who is in his grade to the movies. The cry is 'All the other kids have dates and take girls to the movies.' 'I cornered him as to why. His answer was 'To be popular.' 'Will you tell me what is your opinion, Dr. Myers, and at what age they should be permitted to take girls to movies and parties?'"

At what hour do you think this present generation should be required to come home from parties? A self-addressed, stamped envelope is enclosed."

The Doctor's Reply

If the youngsters went by day to a neighborhood theater and returned promptly home at the end of the movies, there might not be much objection. But if home from the party, also, they should be supervised at the party by adults. Older youths should be home not later than twelve, especially for the duration. If mothers had the courage of their convictions, such standards would be rigidly adhered to.

Youngsters under fifteen or sixteen should be home from parties not later than ten and be accompanied by adults to and from the party. Also, they should be supervised at the party by adults. HINTS AND DINTS

Sun sets tonight 7:22. Sun rises tomorrow 6:34.

The Lincoln School Annual reunion takes place tomorrow night at the Lincoln school. There will be a big crowd there and those who go will get to see some old times. No doubt it is the biggest school reunion to take place here this year.

The time to do everything now is when it has to be done.

People can really get along better without some kind of meat.

MARTIAL FRACTIONS

Married man admiring a bachelor's apartment said: "I wish I could afford a place like this." "You married men have better halves, but bachelors have better quarters," he was told.

Judge: "And you call yourself a peace-loving man?"

Defendant: "I do, your honor."

Judge: "Even after you slugged that man on the jaw?"

Defendant: "Yes, your honor. I never saw that guy look so peaceful as just after I hit him."

NO ROMANCE TO IT

Who said this:

"Once upon a time, children, there was a man who loved his neighbor as himself, aye, even better."

"Sounds like a fairy tale. But it's a fact."

"His neighbor was a widow with four sections of land and \$80,000 worth of negotiable bonds."

"Yes," replied grandpa. "I don't want to miss anything, and I've been stung every other way I know of."

Answer: Since the child is named for his father, he is junior and his father is senior. Had the three of them the same name, the father-father would be senior and mother-mother and the baby the third.

NOT A CALL, BUT A RAISE

A resident in a medium sized town was not a religious man at all. He said he wasn't much concerned about the gorgeous equipment of the next world that the evangelists talked about, that he occasionally took a drink, played poker, practiced sports of various kinds and engaged in other practices that the preachers condemned, but he believed in supporting the churches for business reasons. He said a town without well-supported churches wasn't fit to live in and would never increase its population and amount to anything. He claimed that well-supported and attractive churches with able and active pastors were the best investments the people could make, so he consistently boosted for them. His attitude was so well and favorably known that the deacons of the principal churches asked him to serve as one of the business managers and he gladly consented and was most useful in keeping financial affairs in an efficient manner.

At one meeting the preacher tendered his resignation, stating that he had a call from the Lord to another field of usefulness. Some discussion followed, and this member of the board asked: "Well, these people are to pay you a higher salary, aren't they? The preacher admitted that there was to be a substantial increase. "Hell," exclaimed the questioner, "that isn't a call—that's a raise."

Some years ago, King Carol told how he had selected fourteen of the brightest young men in Rumania for training in the government office. Seven he sent to England, seven to America, to study the economic and political systems of the two countries.

The seven who went to England were very smart," said Carol, "and they all now have important posts in Bucharest. But the seven we sent to America were even smarter. They stayed in America."

The Germans say they retired according to plan. Congratulations. It was the first 1900-mile-long plan in history.

"Please ma'am, do you want us to draw a hen or a rooster?"

Inside Washington

British Information Chief
Impresses U. S. Reporters
At Quebec Conference

By HELEN ESSARY

Central Press Correspondent
WASHINGTON, Sept. 8.—Brendon Bracken!

Bracken! Bracken! It comes trippingly off the tongue. Out of a name, maybe?

No. You're wrong. Brendon Bracken is chief of the British Ministry of War Information. He comes by way of Hollywood. He comes by way of London. He comes by way of the international press.

Bracken is 180 pounds of reality, although when he arrived at his first Washington press conference the other day, newsmen and newswomen gasped inwardly.

There simply couldn't be anybody who looked like Brendon Bracken. But there he was. Accompanied by British Minister Harold Butler, he made his capital debut, walking slowly down the aisle of the Pan-American room of the Hotel Statler.

Bracken and Butler stopped at a table arranged with a pitcher of water and a chair for a stenographer and faced the journalistic inquisition. Minister Butler, in a grayish suit, an undistinguished tie and a waistcoat of sorts, was puffing away at a briar pipe. He looked a proper John Bull.

But Bracken—there he stood, tall, blond and terrific. He wore a well-cut black suit, black and white striped shirt, a collar of the same material, a black four-in-hand tie and the most incredible way golden hair and pale pinky-white skin. The golden hair was the exact shade of his gold-rim spectacles. It was the sort of hair for which any woman would sell her hope for a worthy character.

He couldn't avoid being dramatic. No matter where you'd place him, in a pea-soup fog in the House of Commons or in a Washington party with celebrities, Bracken would be as conspicuous as Tyrone Power at a farmer's union.

Yet, you liked Brendon Bracken at once. You knew he had brains and courage. Also steady, brown eyes, poised, good temper, personal dignity, an adroit use of phrases and a voice that said "You and I understand each other."

He made the press laugh when he said the Ministry of Information was the most kicked around department of the British government.

For almost an hour Bracken continued to say nothing with charm and wit. He did use tough language in speaking of the enemy and a fine phrase in the bit about "strong France is essential to civilization."

Mr. Roosevelt put on such a good show earlier at his press conference that one of the newspaper men said as we walked across Jackson place on our way to the Statler hotel, "Wouldn't old Andy see him up there on his iron horse—have enjoyed Franklin! I, myself, think Franklin's great. I wish we could afford him indefinitely."

Returning for a moment to Brendon Bracken—you might as well learn more about him. He was Churchill's whip in the Commons. He was and may still be publisher of the Financial News of England, which corresponds to the Wall Street Journal, and a director of the Economist. Likewise, he has a heavy interest in the publishing firm which has a monopoly on Bible sales. Bracken spent his boyhood in Australia where it is said he helped tend his father's sheep. He was educated in London public schools, which means the equivalent of American private schools.

The coming visit of Mr. Churchill and the frequency with which the British prime minister and other awfully important people hop across oceans to the shores of the Potomac suggest the thought that Washington may be the scene of the peace conference.

This conference will tax men's minds and hearts more sharply than the conduct of the war. For how will it be possible for any men, merely by talking around a table, to make a peace that will satisfy a world drenched in hatred and blood?

When Neville Chamberlain signed the Munich pact in the belief that he was securing "peace in our time," he made an exile of Edward Beneš, president of Czechoslovakia. Corbet magazine now opportunely recalls the prophecy, which the refugee president made in November, 1938:

"Here (in the West) they may still believe that in Munich they will discover that they are already at war. Munich made war inevitable. I do not know when it will break, possibly in a year, perhaps in two or three. I personally doubt whether it will take more than a year."

"The first to suffer will be Poland. France will pay horribly for her betrayal of us. And Chamberlain—he will live to see the results of his appeasement of Hitler and Mussolini. Hitler will attack us in the West and even Russia—and in the end America, too, will be in it."

The accuracy of that prophecy is startling. Less than a year later—September 3, 1939—France and England declared war upon Germany after Hitler's invasion of Poland, and the other events forecast have since transpired in order.

Interest in this prophecy is enhanced by Mr. Beneš' prediction, in May of this year, that next winter will see the end of the conflict in Europe. "The war," he said, "will conclude with a great victory for the United Nations. I think it will come between November, 1943, and April 1944." This is a rainbow of hope which we can all visualize, considering the recent Allied successes on the European fronts.

However, Beneš looks ahead to a third war within ten of fifteen years unless the victors win the peace. This peace, he emphasizes, must include the cleansing of Germany by internal revolution, making Russia an integral factor in the European balance

THOUSANDS SAY...
"I'M GLAD I BOUGHT LEE DE LUXE TIRES!"

Today... many motorists have satisfying proof of the excellent forethought they displayed when they bought LEE DeLuxe Tires. They congratulate themselves as their speedometers record tire mileage they never before thought possible.

Thousands more say...

"I'M GLAD I LEARNED TO DRIVE AT 25!"

Back in January, 1942, LEE advertising urged: "Learn to drive at 25 miles per hour!... If you are a 65 mile per hour driver and have 10,000 miles left in your tires, you can stretch that mileage to 40,000 by slowing down to 25 miles per hour. SLOW DOWN AND SAVE RUBBER."

That was LEE's advice when the war started. Today... that advice is backed up by the results of a 2,000,000 mile test made by the Engineering Experiment Station of Iowa State College and the Public Roads Administration. This test proves:

1. The rate of tire wear on concrete pavements at a nominal speed of 65 m.p.h. is four times that at a nominal speed of 25 m.p.h.

2. Wheels out of line create a continuous braking effect which in extreme cases will cause tires to wear at ten times the normal rate.

3. The switching of all tires, including that on the spare wheel, every 2,000 miles, is recommended as a means of equalizing tire wear.

4. Tests of tires with recapped treads made of 95 per cent reclaimed rubber, indicate a life

after recapping of 14,000 miles if speed is restricted to 35 m.p.h.

5. Strict compliance with the tire conservation program is necessary to keep the wheels of essential traffic rolling. The major items in this program include a national speed limit of 35 m.p.h., recapping of tires at the proper time, mileage rationing for essential travel, and periodic inspection of tires. Other measures recommended are: Start and stop slowly, reduce speed on sharp curves and steep hills, check tire inflation each week, and keep loads within the rated capacities of the tires.

See the LEE dealer! Get his advice and assistance in making the tires you now have last as long as possible!

You May Never Have To Take Another Laxative

Most constipated people might be as regular as clock-work - if they would only quit worrying - stop being nervous - take more exercise - watch their diet - and get up mornings an hour or so earlier to give bowels time to act. But who can or wants to do all this?

So - the next best thing is to keep the bowels working as regularly and comfortably as we can - and that's where good old Esposito comes in. Why?

Because you may take Esposito at night and expect results in the morning when you get up without waiting around - because they do not move the bowels so violently as to leave you feeling weak and washed-out.

AND because they help give the grand, comfortable, satisfying type of movement that makes the spirits soar - and what sour, constipated person could ask for more! Get Esposito at your drugstore today and take as directed. 22c

LET'S GO!

HERE'S THAT INVASION YOU WANTED!

Now, let's get things straight.

"You don't know who I am. Maybe I'm your son, or brother, or buddy—maybe not. But I am the soldier who'll get the equipment your particular Bonds will buy.

"Do you get a new suit, or a permanent wave, or whatever it is you're looking to spend money on... or will you help pay for the tools to do this job for you?

"O.K. then—show me—Buy Bonds to the limit!"

★ ★ ★

You're in this INVASION. It's as simple as that.

Uncle Sam needs 15 billion dollars this month to pay for this INVASION...and there's no easy way out. If it's not a sacrifice, you're not doing your part. 10 per cent isn't enough—15 per cent isn't enough. Nothing is enough but every last cent you can turn into fighting War Bonds.

You're not giving, American—you're investing.

Investing in freedom, investing in a clear conscience, investing for future security.

And it's the soundest investment anyone ever made.

You'll have the money to educate your children, build your home, buy a car, when the war is won.

The least every American can do to put this over is to buy an extra \$100 Bond in September. But that's the least—you can be counted on to do your level best, can't you? Get those War Bonds now—buy them out of income, buy them with idle, accumulated money—but buy all you can—and be glad to be an American!

World's Safest Investments

Foreign Policy Worries Senate

Definite Policy Statement To Be Sought By Senate Shortly

PARTY RANKS ARE SOMEWHAT SHAKEN

By ELLIOTT HAYES
(I. N. S. Staff Correspondent)

WASHINGTON, Sept. 8.—With Italy and Finland already seeking peace, plans for post-war military alliances today were splitting senate party ranks as congress prepared to reconvene on Sept. 14.

Although a dozen or more ticklish domestic issues requiring quick action are on the calendar for consideration a week hence, recent turn of events in the war place foreign policy first.

The must discussed Ball-Burton-Hill-Hatch resolution declaring American post-war aims is admittedly in the discard.

First, Sen. Tom Connally (D) Tex., chairman of the senate foreign relations committee, has already indicated that some sort of a compromise declaration will be forthcoming, and this committee must report out any resolution. Moreover, Connally has come out definitely for a United Nations police force to preserve peace after the war.

Definite Policy Sought
Secondly, Sen. Hatch (D) N. M., one of the sponsors of the resolution, concedes that all of the authors are interested more in a definite statement of policy than in their own brain child.

Meanwhile, Sens. Robert A. Taft, O., and Arthur H. Vandenberg, Mich., both Republicans, have openly declared their opposition to a military alliance with Great Britain. In so doing, the two went contrary to proposal of Sen. Thomas E. Dewey, N. Y., who still looms large as the Republican presidential nominee next year.

Thus Dewey, one of the foremost G.O.P. standard bearers, and Connally, Democratic chieftain of the dominant Foreign Relations committee, are committed to substantially the same cause.

On top of all this, there are such isolationists as Sen. Burton K. Wheeler (R) Mont., and Sen. Ellison D. "Cotton Ed" Smith (D) S. C., with his America first program.

BUY WAR BONDS!

INVASION!...This is it!...Mighty America is poised!...Will you be able to say: "I personally put my full strength into the knock-out blow"?

THE Third War Loan is on.

To carry the war home to our enemies, with killing fury, calls for an added 15 billion dollars, *quickly*.

Hitler would seize your money.

Your government merely asks you to *lend* it. With every dollar of wealth in this richest of all nations as positive security. And, mind

you, your War Bond money earns interest!

Mother, Father—you can't lose! But your boy—or your neighbor's boy—can! Your country can! Unless you put every ounce of your inspired strength into this final punch!

Your boy, or your neighbor's boy, knows what the fruits of this devastating Allied invasion will be—the months, the dollars, the American lives it will save. And, across the miles, he is pleading—buy War Bonds—*today!*

NEWS AND VIEWS AT CAPITAL

(International News Service).

HARRISBURG, Sept. 8.—State employees have been officially notified by Gov. Edward Martin that numerous dismissals will be made soon.

The move is ostensibly to enable the state to obtain funds with which to increase salaries of the remaining workers in the lower salary brackets.

Cabinet officials were instructed by the chief executive to sift out "unnecessary" personnel from their departments.

The party line is expected to be drawn heavily in the dismissals.

State liquor store clerks already have underway a drive for a 15 per cent wage boost through their county and municipal workers union (CIO).

The governor said that \$1500 salaries could be considered a fair wage level but would not reveal the amount of the pay boosts until it is known how many workers will be discharged.

Administration officials say that increased living costs, coupled with the lucrative

jobs offered in federal employment and in war plants, necessitate some wage boosts for the lower-bracketed state employees to keep them on the payroll. Last fall, former Gov. Arthur H. James granted them a 15 per cent increase.

Such a blanket raise could not be had now without approval of the War Labor Board.

Governor Martin has waged 20 bushels of Pennsylvania apples against one of Nebraska's Gov. Dwight Griswold's prize hogs that the state will exceed its quota in the third war loan drive by a greater percentage than its western rival.

Griswold made similar challenges to all of the nation's governors.

"We will win the bet," Governor Martin predicted, "and if they don't pay off, we'll send the Pennsylvania guard to collect."

Growing old gracefully means only that you grow old in the usual way but don't get sore about it.

Wreck Death Toll Reaches 78

Some Of Injured In Philadelphia Wreck May Not Survive Is Report

TRIPLE PROBE OF CRASH UNDER WAY

(International News Service)
PHILADELPHIA, Sept. 8.—As the last bits of wreckage were cleared from the Pennsylvania railroad roadbed at Frankford Junction where the crackling locomotive derailed Monday night, a final tally by police and city officials today set the death toll at 78, with 117 persons injured.

Of the dead, 23 bodies still lay unidentified in the Philadelphia morgue. The possibility that the death list might rise to as high as 85 was seen as several of the injured were reported in critical condition at the city's hospitals.

The last body was believed to have been taken from the wreckage at 8 o'clock last night, but Quaker City police said one or two bodies might still be buried in the debris. Twenty-four of the dead were men, 48 were women, three were boys and three were girls.

Three-Pronged Probe
Meanwhile, a three-pronged investigation by the carrier, the Interstate Commerce Commission and the Federal Bureau of Investigation was begun. John F. Seals, agent in charge of the Philadelphia office of the F. B. I., said no evidence of sabotage had been uncovered so far.

A spokesman for the Pennsylvania railroad announced that it has been established that there was no lubrication in the journal box of the seventh coach. He said that the axle was "scored as if overheated."

The journal box was examined at the line's Altoona repair shop late yesterday, and further results of the examination will be revealed today at a closed hearing of the Pennsylvania Public Service Commission.

Nine coaches of the 16-car train left the tracks when the accident occurred Monday evening. Most of those killed were riding in the No. 7 car, which split in two lengthwise after hitting a signal tower.

Amazing results in building STURDY BODIES!

1—Promote the flow of vital digestive juices in the stomach
2—Energize your body with RICH, RED BLOOD!

YOUNG people, especially those of grammar and high school age, are prone to be deficient in stomach digestive juices and red-blood.

A growing person who is operating on a 55 to 70% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped. In such cases Nature needs extra help. Organic troubles or focal infection, if they exist, must be corrected. Tissue foods must be digested and rich, red-blood must be present to build sturdy bodies. SSS Tonic is especially designed to build-up BLOOD STRENGTH when deficient and to promote those STOMACH JUICES which digest the food so the body can make proper use of it in tissue building and repair.

These two important results enable the body to make use of the food as Nature intended. Thus you may gain a keen appetite... firm flesh... body energy... mental alertness!

Build Sturdy Health and Help America Win
Thousands and thousands of users have testified to the benefits SSS Tonic has brought to them and scientific research shows that it gets results—that's why so many say "SSS Tonic builds sturdy health—makes you feel like yourself again." At drug stores in 10 and 20 oz. sizes. U.S.S.S. Co.

G. O. P. Post-War Advisory Council For Cooperation

Commit Party To Post-War Cooperation Among Nations At Mackinac Parley

By ROBERT HUMPHREYS
(U. S. Staff Correspondent)

MACKINAC ISLAND, Mich., Sept. 8.—With his own party committed on the issue of post-war cooperation among nations, Republican National Chairman Harrison E. Spangler today asserted that "it would be a great thing for national unity if the Democratic party took a similar step."

Spangler hailed the action of the G. O. P. post-war advisory council which completed its two-day session at Mackinac Island by adopting a foreign policy resolution calling for "responsible" American participation in a world "cooperative organization" to prevent future wars.

Constructive Statement
"It was a constructive statement of aims," the G. O. P. chairman said, "and I hope the Democrats see fit to help us take this question of foreign policy out of politics by making it an American policy."

"I would like to see President Roosevelt, as titular head of the Democratic party, assume the lead of this, at such time as military matters will allow him to do it. The United States should have only one foreign policy—an American policy. It should not be a party matter."

Sen. Taft of Ohio asserted that "I think the president could certainly go as far as we have gone in supporting the idea of a 'cooperative organization'."

Unanimous Action
The council, composed of 24 governors, five senators, 12 congressmen and eight G. O. P. national committeemen, took its action on foreign policy unanimously.

The resolution, which was drafted

by a committee headed by Sen. Vandenberg of Michigan, had a decided "nationalist" character in that it reserved to this nation "protection" of its own interests, its constitutional system of treaty ratification, and the right to remain armed.

Specifically, the council declared the following policy:

"1. Prosecution of the war by a United Nation to conclusive victory over all our enemies, including:

"(a) Disarmament and disorganization of the armed forces of the Axis.

"(b) Disqualification of the Axis to construct facilities for the manufacture of the implements of war.

"(c) Permanent maintenance of trained and well equipped armed forces at home.

"2. Responsible participation by the United States in a post-war cooperative organization among sovereign nations to prevent military aggression and to attain permanent peace with organized justice in a free world."

Refuses Call To Selective Service

(International News Service)
MANCHESTER-BY-SEA, Mass., Sept. 8.—Robert Traill Spencer Lowell, Jr., member of the famed Lowell family of Massachusetts, has refused a selective service call to enter the armed forces.

He is a cousin of the late A. Lawrence Lowell, president-emeritus of Harvard University.

In a letter to President Roosevelt, made public today from his North Shore home, the 26-year-old poet said "...I have come to the conclusion that I cannot honorably participate in a war whose prosecution so far as I can judge constitutes a betrayal of my country."

Young Lowell, a former student at Harvard College and Kenyon College where he studied poetry, had been ordered to report for induction today.

NURSES AIDES TO MARCH IN PARADE

All Red Cross Nurses Aides of the New Castle Hospital and Jameson Memorial Hospital will report in uniform, Friday evening at 7 o'clock, at the American Legion Home, North Jefferson street, and will participate in the third war bond rally parade.

Representative Fish says MacArthur will be the next president. The way to Washington leads through Tokyo. — Philadelphia Evening Bulletin.

PROCLAMATION

Whereas, our country, together with our Allies, is engaged in a war to preserve the democratic way of life, and

Whereas, millions of our fathers, brothers and sons are in the uniform of our armed forces, and many have or will face the enemies' gun fire, and

Whereas, thousands of army and navy nurses will be required to care for the sick and wounded, and

Whereas, this week has been designated as Recruitment Week for army and navy nurses under the sponsorship of the American Red Cross.

Now, therefore, as mayor of the city of New Castle, I call upon all our people to aid this effort in every way possible and, particularly upon those young women of our city who are eligible, to give serious consideration to enlisting as an army or navy nurse to the end that the lives of our soldiers and sailors wounded in battle may be saved.

CHAS. B. MAYNE,
Mayor.

Offers To Serve As "Guinea Pig" For Malaria

(International News Service)
CINCINNATI, O., Sept. 8.—An offer to act as a "human Guinea Pig" for the testing of anti-malaria drugs was made today to Cincinnati's famed Insitutum Divi Thomae by Dr. Eileen McFarlane, 40-year-old Scotch-Irish geneticist.

Dr. McFarlane's offer means that she is willing to lie in a tent swarming with hundreds of malaria-infected mosquitoes and contract the disease so that the institute's department of experimental medicine could gain further data on the dread disease.

The offer, made at the institute's fourth annual conference, was not accepted immediately, but Dr. George S. Speri said he "would consider Mrs. MacFarlane's offer seriously."

The Cincinnati geneticist's offer was believed due to reports that more American soldiers have died in New Guinea and the Solomons of malaria and dysentery than of wounds caused by Japanese weapons.

Earlier, Dr. Alfred Lonsing told the convention he believed the institute had found, in the Florida everglades, a natural drug even better than quinine for the treatment of malaria. Dr. McFarlane said she was willing to contract the fever and then be treated by the new drug.

The other members of his family had been returning from Washington, where they visited relatives, when the fatal accident occurred.

NEW ORLEANS, La., Sept. 8.—Detective Joseph Vigurie was exonerated today in connection with the fatal shooting of Willie Stevens, confessed attacker of several small girls.

Stevens was shot to death by Vigurie in a scuffle inside a police car last night.

In voting a "no true bill" for manslaughter in the Vigurie case, the grand jury returned "no findings" in the case of Lieut. Commander John P. Vogt of the Coast Guard Reserve who two days before Stevens was killed fired two shots into the prisoner's arm as the latter was being exhibited in the police showup.

Vogt's daughter was one of the girls involved in the case.

TAXPAYERS HAVE A RIGHT TO EXPECT PROVEN ABILITY IN THEIR CITY TREASURER

When a taxpayer lays down his hard earned money upon the counter of the city treasurer, he has a right to know that the treasurer is not only honestly intentioned, but that he has the ability and experience to receive and disburse the money strictly according to the law.

Not every person is qualified to receive and disburse large sums of money. That takes training and experience. B. N. "Bernie" Hanlon, a candidate for the Republican nomination for City Treasurer, has back of him, college training in accounting and thirty years of experience in that exacting field.

This advertisement is being run without the knowledge of Mr. Hanlon. It is sponsored and paid for by a group of his friends who know him as an upright citizen, a citizen who has never been too busy to lend his aid to every worthy civic enterprise. They know him as an accountant accustomed to handling money and rendering accounts and doing it efficiently.

B. N. "Bernie" Hanlon would make an ideal City Treasurer. We commend him sincerely to the Republican voters upon Tuesday, September 14th.

German Officers Are Recaptured

(International News Service)
TRINIDAD, Colo., Sept. 8.—Two German army officers, who escaped from a war prisoner camp near Trinidad Saturday, were back in custody today after a motorist offered them a ride and then turned them over to authorities.

The two escaped officers were captured by Roy Mitchell, who said he saw them on the highway near Valdez, Colo., and recognized them as the two fugitives. After notifying the sheriff's office he returned to the highway and offered the men a ride, and then proceeded slowly until the sheriff overtook them.

The officers—Lt. Ego Horst, 23, of the regular army and Lt. Karl Galtwitz, 24, a Luftwaffe flyer—said they had remained in hiding in the brush near Trinidad since their escape.

WAR PILOT ON RAFT IN PACIFIC 20 DAYS

(International News Service)
CHICAGO, Sept. 8.—Twenty-five-year-old Lieut. George H. Smith, who abandoned all hope of rescue while adrift 20 days in the South Pacific, today told a dramatic story of the harrowing ordeal.

His army fighter plane crashed into the ocean 50 miles south of the Russell Islands in the Central Solomons and for nearly two weeks he drifted in his one-man raft, from which he frequently was hurled into the shark-infested waters by the heavy seas.

Lieut. Smith is home in suburban Elmhurst on a 25-day furlough and his experiences were described in a copyright story by the Chicago Herald-American.

Have a Coca-Cola = Hail, Hail, the Gang's All Here

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

...or how to welcome a WAVE on furlough

When your pal comes home on furlough, what do you say for welcome? Why not let Coca-Cola speak for you? There's no chummier way to say the gang's all here than to drink a friendly "Coke" together. Bronze-United Softball Series To Begin Tonight

Inaugural Clash At Gaston Park; Foes Are Primed

Record Breaking Crowd Predicted; Tiff To Start At 5:45; JB Underdog

Judging by the interest being evinced, the Johnson Bronze-United Engineering Industrial softball championship series, starting tonight at 5:45 o'clock on Gaston Park field, will be the biggest event in the history of the game here.

Employees of the two plants are backing their boys to a "T," moguls assert.

From an attendance standpoint, it's difficult to figure out how such a throng will be accommodated. While it's only a softball series, employees of the two plants feel that the reputations of the plants are at stake. As a result, one official said today.

Headed by Norm Bishara and Francis Liposky, two of the classiest twirlers in the district, the UEF occupies the favorite's seat. The remainder of the UEF squad is jammed with local softball big names.

Stars Plentiful

The JB has its own set of stars but hardly enough to cope with the Jefferson street plant. Ted Turco, "Tex" Kelley, Bob Pascarella and "Munk" Reaney are a few of the JB standouts.

Both aggregations have spent hours on the practice field and today the respective managers pronounced the stage all set for what should be a thrilling series.

Winner of the five-game series will receive a cup donated by Jack Gerson.

Proceeds will be given to Patsy Russo, a United Engineering employee, who was seriously injured in an automobile crash recently.

The contests will be seven inning events.

Tony Pegnato, Don Edgar and "Tip" Richards are in charge of the UEF aggregation while Joe Diffley, JB personnel manager, is piloting the Mill street plant athletes. Mike Diffley and Joe Bosco are assisting him.

Moose-Indies Play Third Tilt Thursday Night

Deadlocked in their current series for the City Baseball league championship, the Lawrence Indies and Moose club resume play on Mahoning field, Thursday night at 5:45 o'clock.

The Indies, first half winners and the pre-season favorite to capture the crown, handed the Rodenbaughmen a 12-3 setback but suffered a 6-5 defeat in the second tilt Sunday afternoon.

"Now that we're on the right track, look out," beamed "Fliz" Rodenbaugh, Moose pilot.

"It'll be different tomorrow night. We could have easily won that Sunday game. But, that's gone. We'll make up for that one," countered "Hoss" Zidow, Indies boss.

Allentown Wings Top Athletics, 5-4

(International News Service) ALLENTOWN, Pa., Sept. 8.—The Allentown Wings, who have held down last place in the interstate league for the greater part of the 1943 season, today had scored a 5-4 upset over the Philadelphia Athletics.

The A's got off to a 2-0 lead in the third inning, but were unable to overcome a rally put on by the Wings in the seventh and eighth frames.

Cy Young Names Waddell Greatest Southpaw Pitcher

By GERALD B. HEALEY

(International News Service Sports Writer) CLEVELAND, Sept. 8.—Cy Young, the iron man of baseball who never was paid more than \$2,400 for a season's work, says that Babe Waddell was the "greatest southpaw pitcher who ever lived."

Cy, now 75 years old and a farmer in the northeastern Ohio county of Tuscarawas, did all right himself in the major league pitching business as far as competition was concerned.

Young knows Waddell was good for he engaged him in a 20-inning mound duel when the Cleveland Indians and Ruben's Philadelphia Athletics looked horns back in the dear, dead days.

Contract on Display

Young's first major league contract, now on display in the Baseball Hall of Fame at Cooperstown, N. Y., called for \$200 a month for seven months. That was at the time when two pitchers did most of the hurling, working every other day. A third flinger sometimes got in on a relief job.

He was an instant success, pitching 36 games for the club before the Indians grabbed him in late season. He pitched 17 ball games for the Cleveland club that year and he averaged about 40 games a season from then until the close of his illustrious days on the mound.

He pitched more than 800 games with that strong right arm of his during his big league tenure, and won 511 tilts.

He started with Canton, O.

Jack-Montgomery Fight Postponed; New Date Oct. 4

(International News Service) NEW YORK, Sept. 8.—The lightweight championship fight between Bob Montgomery and Beau Jack, scheduled for next Friday night at Madison Square Garden, has been postponed until October 4, the 20th Century Sporting club announced today.

The postponement, it was stated, was due to the fact that Montgomery is suffering from a severe tooth ailment.

SINKWICH-LIONS TO TALK CONTRACT

(International News Service) DETROIT, Sept. 8.—The football career of Frank Sinkwich, former University of Georgia All-American, will be decided at Akron, O., on Sunday, it was revealed today.

Sinkwich, due for discharge from the Marine Corps at Parris Island on Saturday, has arranged a meeting with Fred Mandel, owner of the Detroit Lions professional football team, to discuss his present contract with the Lions.

PITT'S GRID SQUAD NOW 73 STRONG

(International News Service) PITTSBURGH, Sept. 8.—Prospects for the 1943 grid season were looking up for Pitt today as 73 squad candidates sped through workouts under the watchful eyes of Coach Clark Shaughnessy.

Among the newcomers who reported for drill yesterday were freshman Guard Merle Hayman of Youngstown, O.; Tackle Herman Drews from Independence, O.; and Bob Ernst, an end, of Pittsburgh.

BIG MOMENTS

Average ball-player's thrill of a lifetime is hitting that winning homer, stealing home with the big run, 6 for 6 in the box score, things like that.

Thirty-Two Illinois Players Home Grown

CHAMPAIGN, Ill., Sept. 8.—The Illinois roster has been swelled by the addition of Eddie McGovern, Terre Haute, Ind., and Chester Sajna, Peru, Ill., backs, and Charles Autheriet, Mattoon, and Max Morris, West Frankfort, tackles.

Of the 48 players now listed on the roster, 32 are from the state of Illinois. The 16 out-of-state players is the largest number to represent Illinois in years and is due in no small part to naval V-12 cadets who were assigned here in engineering and premed courses.

In all, eight states and one foreign country place men on the squad. Illinois leading with 32, the others being Indiana, Minnesota, Massachusetts, Kansas, Kentucky, Texas and Ohio. The foreign country is Turkey.

HERE AND THERE IN SPORTS LAND

Tommy Leach, local matchmaker, has arranged eight bouts to be staged in Butler, Friday night, for the benefit of the Deshon army hospital. Four of the bouts will comprise soldiers from Shenango Personnel Replacement camp. Among the soldiers are several good boys, especially Schneider, Pvt. Joe Farrow, stationed at Deshon hospital, is also said to be quite a battler. He will appear against Mickey Wargo in the main bout. The other battles arranged are:

Mickey Wargo, Pittsburgh vs Pfc. Joe Farrow, Deshon army hospital 130.

Lalo Berizo, Youngstown vs Dick Delaney, Pittsburgh, 145.

Joe Litot, Pittsburgh vs Red De Matto, Youngstown, 118.

Louis Karkido, Youngstown vs Young Montana, Youngstown, 112.

The writer will co-operate with Jack Dunlevy, Chuck Foringer and others in running off the fight. Incidentally, it might be stated that Dunlevy, Foringer and others who are in charge of the bouts hope to beat the mark (\$5,600) set here when a local committee staged a show to benefit the hospital.

(International News Service) PITTSBURGH, Sept. 8.—Pittsburgh Pirates officials today congratulated themselves on the purchase of Artie Cuccurullo, southpaw from Albany, N. Y., club of the Eastern League.

Because of a working agreement with the Senators, the Corsairs had first rights on the 24-year-old, five-foot, 11 inch youth who has won 18 games and lost eight for the New Yorkers this year.

York Clouts 31st, Tigers Win Two From White Sox

Detroit Slugger Nears Home Run Title; Dizzy Trout Captures 17th Triumph

(International News Service) NEW YORK, Sept. 8.—One of the almost certain developments of the current baseball campaign is eventual establishment of Rudolph Preston York, of the Detroit Tigers, as major league home run champion.

Only Charley Keller of the New York Yankees now seems to have even the remotest chance of nosing out York, and Keller's chances are growing slimmer and slimmer.

York slammed his 31st circuit blow yesterday as the Tigers took both ends of a double bill with Chicago, 5 to 0 and 6 to 5 as all other clubs remained idle and with that he moved six home runs ahead of Keller, who is the American League runner up.

In the National, Bill Nicholson, of the Chicago Cubs, has 22 to set the pace in that league and Mel Ott of the New York Giants is runner-up with 17.

Move Up Closer

By winning yesterday's double bill the Tigers pulled up a little closer to the Cleveland Indians and the Washington Senators who are fighting it out for runner-up honors behind the Yankees.

Dizzy Trout won the opener for the Tigers, aided by York's homer and No. 10 for Pinky Higgins. It was trout's 17th victory against 10 defeats.

In the nightcap, Johnny Gorsica was credited with victory, although he was only one of four hurlers used in the tussle.

After yesterday's layoff in both leagues—except for the double-header at Detroit—the National League swung back into action today with three games, while the American took another day of rest.

SPORTS RAMBLINGS

Sports in mixed up fashion:—

The passing of Lt. Dale R. Dummire, in a plane crash near Memphis, is the saddest news to reach this desk in a long time. The lean athlete, who was tagged "Smokey" because of a super-abundance of moxie, was one of the finest young men I ever knew in close to 15 years around the sports globe. On and off the court, he was a gentleman . . .

He came to Westminster in 1940, at a time when the Titans boasted of one of the strongest squads in the nation. Despite this, the tall athlete worked tirelessly and nudged his way into the lineup and didn't leave it until he joined the forces. Always interested in improving his game, Dummire occasionally would ask me, "Did I look sluggish? Was I too erratic?" The answer was always no because he was truly a master workman on the court . . .

In his last letter to this desk, "Smokey" expressed himself as being extremely pleased with the service. "I haven't been home since last summer. I'm certainly anxious to see the state. Maybe I'll get back sometime this summer. After I get my wings. I'm certainly hoping so," he wrote, from Merced, California. That was the last letter I received from him . . .

It's hard to believe that such a right nice guy had to go at a time when he was reaching his prime. While he never got a chance to visit his friends back home, I'm certain that his memory will live on. You just don't forget guys like Dummire, as Coach Grover C. Washbaugh, the Titan coach, put it . . .

Zelenople, which gave Ellwood City a battle and then some, bears watching. This is the opinion of Fay Cowan, who does the Ellwood page for this sheet. "Union Township and Shenango had better point for Zelenople. The line is rugged and the backs fast," the scribbler declared . . .

Dick McKee, the shrewd Ne-Ca-Hi quarterback, lost a half dozen pounds at Muddy Creeks Falls last week. . . . Lester "Bus" Reiber, the ex-New Castle-Duquesne university basketball ace, is home on furlough. The blond is with the U. S. Coast Guard and is stationed at Wildwood, N. J. . . .

EARL WALSH NEW ST. AMBROSE COACH

DAVENPORT, Ia., Sept. 8.—Earl Walsh, grid boss Fordham university last season, has been appointed mentor of the St. Ambrose Academy for the current season.

Trojans, California U. Far West Grid Greats

By MILTON G. DUNLAP

(International News Service Sports Writer) SAN FRANCISCO, Sept. 8.—Big Time football, such as the average addict knows it, won't be much in evidence on the Pacific Coast this year.

There will be football, to be sure, generous quantities of it, but the quality stuff will be lacking, so far as powerhouse teams comprising Class A players is concerned.

It has been breezed up and down the coast and around sports editor's desks that the University of Southern California Trojans will probably spring the strongest team in the conference this year, with the University of California at Los Angeles, last year's champions, running second.

Material Plentiful

Both of these teams have secured wealth of promising material from Army and Navy men now in school for special work, but the same applies to the University of California at Berkeley and other schools in the conference.

From the small, but well known College of the Pacific at Stockton, football's Grand Old Man Amos Alonzo Stagg, has ordered his Navy candidates to report for preliminary training August 10 and with this Stagg begins his 54th season as a grid coach.

As a matter of fact, Stagg will probably pop up with one of the best teams on the coast this fall, since, under the Navy's training program now being carried out by College of Pacific, he will have material from St. Mary's college, the University of San Francisco, Santa Clara and holdovers from last year to draw on.

Small School Fold

A lot of small, independent schools up and down the coast and from the interior regions of the West have dropped football altogether this year and, no doubt, for the duration.

But all in all, the football filberts will get their share of it, and we might even have a Rose Bowl game, come New Year's Day, at Pasadena.

Smell Of Madison Square Garden Bout Follows Scribe All Way To Farm

NEW YORK, Sept. 8.—The voice on the telephone said:

"How you feeling, pal? How was the vacation, pal? It must have been great up there on the farm away from all this heat and one thing and another, pal. But what I called to say is that some one just stumbled in here and mentioned that you were back in town and might need a piece so I thought I would suggest that you write a piece."

The voice went on to say that Bob Montgomery would do a lightweight title encore with Beau Jack at 15 rounds, that it looked like a sell-out for Madison Square Garden and that the old fight racket-eroe is buzzing right along.

This publicity agent's mention of the forthcoming engagement reminded me of something else which I will tell you about, an incident that happened up on the farm.

Smell Anything?

A couple of weeks ago I was sitting out under a pear tree along about 11 p. m. getting a few last minute breaths of good fresh ozone, when a farmer walked in with a shotgun under his arm and said:

"Howdy, neighbor—smell anything?"

"Can't say that I smell anything, neighbor," I said, sniffing at the air. "What's smelling in these parts, neighbor?"

"Can't say that I rightly know," he said. "Might be skunk and it mightn't. Figured I'd prol around for awhile with old Betsy here," he went on, patting the gun.

Then he disappeared in the darkness. I was on my way up to retire for the night in the haystack when I put my head back and began to sniff. I smelled something, too.

It was ever so faint, this odor, as though it had travelled a long way. I stood there sniffing awhile and then suddenly it hit me like a well-aimed brick. This was not the odor you find in the countryside. This one came from some city, perhaps many, many miles removed from mountains and streams. Maybe some city all the way across the continent.

And sure enough there it was in the papers next day. Ray Robinson and Henry Armstrong had created such a smell with the fight in Madison Square Garden the papers were splashed all over with it and the stench was awful.

This has nothing to do with the Montgomery-Beau Jack fight and I merely related the incident as a unique highlight to my vacation.

ZIVIC MAY FIGHT VINES ON FRIDAY

(International News Service) PITTSBURGH, Sept. 8.—Speculation was rife today as to whether Zivic would meet Vinnie Vines in a 10-round windup match at New York to replace the postponed lightweight championship bout between Bob Montgomery and

Japs Threaten To Occupy Portuguese Colony Of Macao

(International News Service)
CHUNGKING, Sept. 8.—Japan is threatening full military occupation of the Portuguese colony of Macao, 40 miles southwest of Jap-held British Hong Kong, Chinese reports said today.

Japan reportedly has threatened to occupy the strategic territory unless Japanese advisers are accepted in the Portuguese colony.

While Japanese troops were said to be assembling at the border of the colony, Macao's governor was reported adamant and is said to have reminded the Japanese of Portugal's neutrality.

Early in the war the Japanese occupied the Portuguese half of Timor Island at the same time as they seized Dutch Timor in the invasion of the Netherlands East Indies.

Moose To Present Program At Deshon

New Castle Lodge Sponsoring Entertainment At Veterans Hospital Thursday

New Castle Lodge No. 51, Loyal Order of Moose, will sponsor the program to be presented at Deshon hospital, Butler, under the auspices of the Perry S. Gaston Post, American Legion, Thursday evening.

A good program of entertainment is being arranged by the local Moose Lodge, Governor George R. Gettings states. The group will be accompanied by Chairman A. Lewis Conn, and officers of the Legion Post.

Biography of Sara Teasdale and selections from her collected poems were given by Mrs. Josephine Alexander.

Forum discussion was one on "Original Poetry." Response to roll call, "What I have achieved during the past season," brought to light the fact that several members, Mrs. Mary Leslie of Butler, Mrs. Mae Wilson and Mrs. Nita Brenner, have had poems accepted for publication since the last meeting of the group.

Poetry Group membership is made up of those who enjoy reading or writing poetry, or both, and all men and women in New Castle and vicinity who have a special interest in this form of literature are eligible to attend meetings.

Poetry Group Year's Program Plan Given

Opening meeting for the year of the Poetry Group took place Tuesday evening at 7:30 in the historical room of the public library when program booklets for the year were distributed by Mrs. Mildred Gardner, program chairman, and Miss Gaudin Rhodes, Miss Beulah Ruthrauff and Miss Betty Gray, program committee members.

A review of "Current Events in Poetry" at each monthly meeting will be a new feature on the year's programs. Lectures on the technique of poetry, a series begun during the past season by Mrs. Carroll Loupe Fisher, will be continued.

"Radio Poetry," a presentation by Miss Ruthrauff, was the feature of Tuesday's program. Musical background accompaniment to the reading was played by Miss Mary Elizabeth Jenkins on the old Sankey organ.

Biography of Sara Teasdale and selections from her collected poems were given by Mrs. Josephine Alexander.

Unconditional Surrender Of Italy Causes Fractional Losses; Trading Picks Up

(International News Service)

Trading, however, picked up considerably.

Bethlehem Steel lost about 1½ points and American locomotive over a point. Rail shares were weaker.

Motors, aviation and rails were under pressure. United Aircraft, Chrysler, and Union Pacific were leaders showing major fractional losses while smaller declines were recorded by Lockheed, General Motors and Atchison.

Also following the general trend were the amusements and utilities.

Red Cross Given Aid In Moving Of Three Departments

Members Of Masonic Order And Pennsylvania Power Company Donate Use Of Rooms

Thanks were extended today by Mrs. John E. Elliott, chairman of Volunteer Services of the Lawrence county chapter of the American Red Cross, for the generous assistance the chapter has received making possible the recent move of the surgical dressing department to the Cathedral and the production and knitting departments to the service building of the Pennsylvania Power company. These three departments had formerly been located on the fourth floor of the Wallace block.

"We want to thank the Masonic organization, the Penn Power company, Mr. Jack Gerson and an anonymous donor for the help we have received from them which made possible the moving of our volunteer service departments during the past two weeks," Mrs. Elliott said.

Through members of the Masonic order the use of a room in the Cathedral building has been donated to surgical dressings and the Pennsylvania Power company has turned over the use of several rooms in its service building on South Jefferson street to the Red Cross for sewing production and knitting headquarters.

An electrical clock contributed by Jack Gerson as a timepiece in the surgical dressing work room was a welcome gift.

In addition, the chapter received the gift of a sum of money which the donor asked only that it be used as needed. Consequently it was used to defray part of the expenses of moving.

LIONS PREPARE FOR BOND DRIVE

Meeting Tuesday Is Preliminary To Bond Sales Campaign Of Club

What roaring was done by the New Castle Lions Tuesday at noon in their regular weekly luncheon meeting was done in behalf of a cause that has 130 million people roaring in unison. War Bonds in the Third War Bond campaign which opens September 9.

The entire program of the club was turned over to pushing bond sales and much of the time was spent in naming teams, distributing material and setting the stage for a grand showing by the club members.

King Lion Arthur Meek presided and introduced Judge W. Walter Braham as the speaker of the day. Judge Braham is the county chairman for the third bond campaign and presented a number of reasons why the Lions should not only buy bonds but should put on a sales campaign.

The Lions club roared through to a grand finish in the second war bond campaign. You can look for them to excel that record in the third campaign.

FRESHMEN WILL ARRIVE THURSDAY

Fall Term To Open At Westminster In Next Few Days

(Special To The News)
NEW WILMINGTON, Sept. 8.—Fall term activities for Westminster College's 91st year begin tomorrow when all freshmen students arrive on the campus for the regular freshman orientation week.

College dormitories will open tomorrow afternoon with the first meal to be served tomorrow evening. Some freshmen women will be assigned to Ferguson Hall, formerly only used for upperclass women. Others will be quartered in Mack Lodge, Russell House, Boyd House, Minter House, and the Alpha Sigma Phi fraternity house which has been acquired by the college for use as a women's residence for this year.

Browne Hall, former freshman women's dormitory, will not be available since it is being used by soldiers in the Army Specialized Training Unit. Soldiers are also occupying Jeffers Hall, and the Sigma Phi Epsilon fraternity house, while Naval Cadets are stationed at Hillside, former men's dormitory. Freshmen men at Westminster will room in private homes in the community.

Dr. Robert F. Galbreath, Westminster president, will deliver an address of welcome to new students at a freshman assembly Friday morning in Wallace Chapel. Orientation classes, placement tests, and conferences with advisors will keep the first-year students busy through the first week.

Lehman Seeks More Authority

Growing Belief He Is Dissatisfied With Conditions In Foreign Relief Post

By KINGSBURY SMITH
(I. N. S. Staff Correspondent)
WASHINGTON, Sept. 8.—There is a growing belief in some administration circles in Washington that Herbert H. Lehman is dissatisfied with his lack of authority as director of the Office of Foreign Relief and Rehabilitation Operations.

The view prevails in these circles that the former governor of New York may resign his job as chief benefactor to the war-wrecked areas of the world unless his position is more clearly defined.

When these reports were brought to the attention of Lehman by the writer he smiled pleasantly and replied: "I have nothing to say."

He made no effort to deny the rumors, or to request that no publicity be given to them. One had the impression that he considered it beneath his dignity to become publicly involved in the political feuds of Washington.

Lehman's friends believe he will remain in his post as long as he is able to exercise his own authority in connection with the basic policies of the relief and rehabilitation program. If there is so much division of authority that Lehman cannot make his own views prevail, it is thought he will ask the President to relieve him of his post.

Some within the administration think Lehman already feels his authority has been seriously impaired by other agencies of the government, including the State Department.

Commander Of U-Boat Captured

(International News Service)
WASHINGTON, Sept. 8.—The Navy disclosed Tuesday how a U. S. patrol boat in the Atlantic attacked and sunk a German submarine, capturing its German commander.

The boat, the PC565, was commanded by 32-year-old Lieut. Walter T. Flynn, of Canandaigua, N. Y. According to the Navy, the submarine's entire crew was trapped below decks as it sank, but its commander, on the conning tower, swam clear and was taken prisoner.

The sub was first located by the sound detecting apparatus manned by Kisco Reh, 19-year-old sailor from Comfort, Tex. The patrol boat closed with the submarine and dropped depth charges over it. The sub was forced to surface but it later began to sink when the patrol craft was about 100 yards away.

SOLDIERS ENJOY ORCHARD PRODUCTS

(Special To The News)
GREENVILLE, Sept. 8.—Fruit trees and grape vines on abandoned farms within the Camp Shenango reservation are still in production—much to the delight of the GI whose detail work takes him from field and into the old orchards.

With the usual impatience associated with chow, however, the soldiers raid the fruit trees long before the products are ripe.

As a result, they feast on sour apples, sour pears, and of course sour grapes.

KOPPEL MAN CAPTIVE IN MANCHUKUO CAMP

A card from Kenneth Bates, war prisoner of the Japanese in Mukden Manchukuo, to his parents, Mr.

and Mrs. Robert Bates of Koppel, states that he is feeling good and hopes to be home soon.

Captured at the fall of Bataan, Bates was held in a prison camp in the Philippines until his transfer to Manchukuo. This is the first his family has heard from him since December 3, 1941.

Before entering the service, Bates was employed by Babcock and Wilcox Tube company. He has a brother, Edward, in service at Camp Swift, Texas.

SOLDIERS TO STAGE SHOW

GREENVILLE, Sept. 8.—Shenango's own show, "Soldiers in Grease-paint", will be presented at the Nixon theatre, Pittsburgh, Sunday evening, Sept. 19.

Several new characters and acts have been added to the show which was a decided success when it was presented at Erie.

BADGY—is U. S. war slang describing a service man who enlisted while under age. Any citizen in the United States can enlist his money in the war. Buy an extra \$100.00 War Bond in September.

BARKER—U. S. fighting word for heavy artillery gun. To provide guns and ammunition, keep up production schedules and buy War Bonds regularly with an added \$100.00 Invasion Bond in the 3rd War Loan.
